## **PRESS RELEASE**

**17 July 2017**

### **Shortlist Revealed for the INCA Awards 2017**

We are excited to reveal the shortlist for the Insulated Render and Cladding Association (INCA) Awards 2017, which was announced at the INCA AGM in July, recognising innovation and excellence in external wall insulation (EWI).

Now in its fifth year, the INCA Awards show the vital role EWI achieves in a varied range of innovative EWI solutions to improve not only the efficiency of a building, but also the aesthetics. There are nine award categories covering projects in New Build and Refurbishment, as well as member companies' successes in Training and Outstanding Achievement. New categories for 2017 include the Installer of the Year, which recognises the achievements of INCA contractor members for their innovative solutions and community engagement. Also the Innovation Award, recognising innovation in EWI systems, products and technologies.

The judging panel consisted of industry experts from Agility Eco, BEIS, EAE, Energy Saving Trust and Sturgis Carbon Profiling, who were impressed by the remarkable detail accomplished by INCA members to deliver top standards for their clients.

Chair of the judging panel, and Agility Eco CEO Gearóid Lane, said:

*"The INCA Awards is an excellent occasion to bring together our members and celebrate their fantastic contributions to the industry. We have had some outstanding entries this year that have really pushed the boundaries both technically and creatively. Congratulations to everyone who was shortlisted and we look forward to announcing the winners at the INCA Awards Dinner."*

The winners will be revealed at the black-tie INCA Awards Dinner 2017 on Thursday 5 October at the beautiful Titanic Hotel in Liverpool's Stanley Dock. This flagship event will showcase the EWI industry to around 200 guests from across the construction industry.

The Awards are sponsored by CITB and QANW, as well as INCA members: Alsecco UK, E.ON, Kingspan, PPG Architectural Coatings, Saint-Gobain Weber, SPSEnvirowall and Sto.

~ Ends ~
