

ABOUT US

With years of experience in the trade, the DP Insulation Render team specialise in external rendering and internal insulation.

We are unlike any other building company as we put our all into providing the services that we do. Using the experience we have as well as our knowledge and skills, we create unique and beautiful home interiors and exteriors.

Putting energy efficiency and warmth first doesn't mean you need to compromise on style. With external rendering, you can create a decorative and colourful finish providing your home with style.

Our team are there to offer advice and guidance and can help you to make the perfect choice for your home.

WHAT WE DO

Whether you require external wall insulation systems or are looking to invest into internal insulation for floors, walls, ceilings, or a loft, our team can help.

As insulation render specialists, we work with modern approaches to create a finish that you can be proud of. Our focus is on improving the energy efficiency in your home at the same time as providing a unique render.

Some of our key services in Sheffield and across South Yorkshire include:

- **Loft Insulation**
- **External Walls Insulation**
- **External Rendering**
- **Property Maintenance & Refurbishment**

For more details or information, please get in touch.

One of the main brands we work with are K Rend. As one of the UK's largest independent manufacturers of silicone coloured render, you can easily find a perfect match for your home.

They have more than 28 years of experience and their innovative

approach enables the render surface to become repellent to water.

These surfaces are durable against the weather and offer a natural finish. The silicone range is also low maintenance, has a varied colour range, and also allows structures to breathe underneath it.

Currently K Rend offer two main types of render - silicone thin coat and silicone scraped texture. There are several colours to select from:

- **Limestone White**
- **Sunflower**
- **Granite**
- **Mint**

Developed for painters and decorators, Johnstone's Stormshield provide long lasting protection to property exteriors.

It is simple to apply and protects against a range of areas including the accumulation of dirt and damage from UV light.

Stormshield is also weather resistant and provides shower proofing within just 20 minutes of application. On top of this, it features anti carbonisation properties.

There are several different textures and finishes to consider, ranging from 10 to 15 years of protection.

These include the following options:

- **Smooth Masonry Finish**
- **Textured Masonry Finish**
- **Jontex High Build Textured Masonry**
- **Pliolite Based Masonry Finish**

*You have the complete
freedom to transform
your home or
business...*

”

One of the other external renders that we specialise in here at DP Insulation Render is Sempre. We are Sempre Authorised Contractors and have been working with this material for many years.

Sempre Render manufacture construction materials, including complete insulation systems. They hold industry awards and certificates and provide solutions for all weather conditions.

With a wide variety of colours available to select from, you can create the perfect finish for your building.

Alongside this, Sempre Render is ideal for use on renovation projects. Working with older and more classic buildings isn't always easy, but there are a range of products available making colour and surface matches much easier.

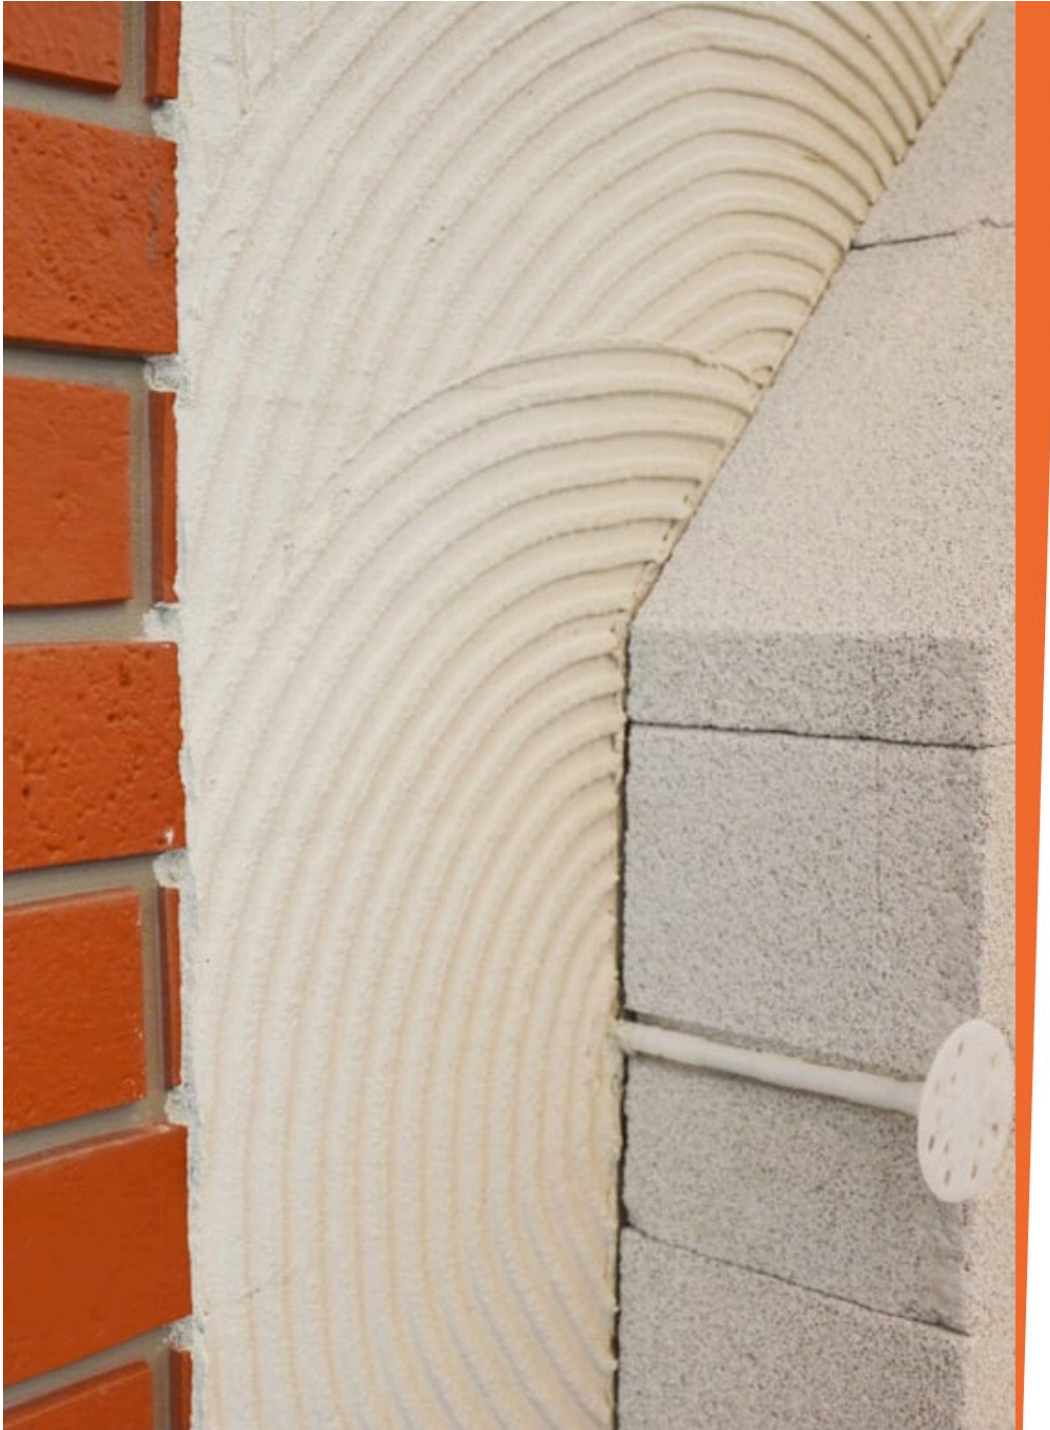

Sempre

“

There are several finishes available, ranging from single and mixed colour to mosaic render...
